- Community partnerships

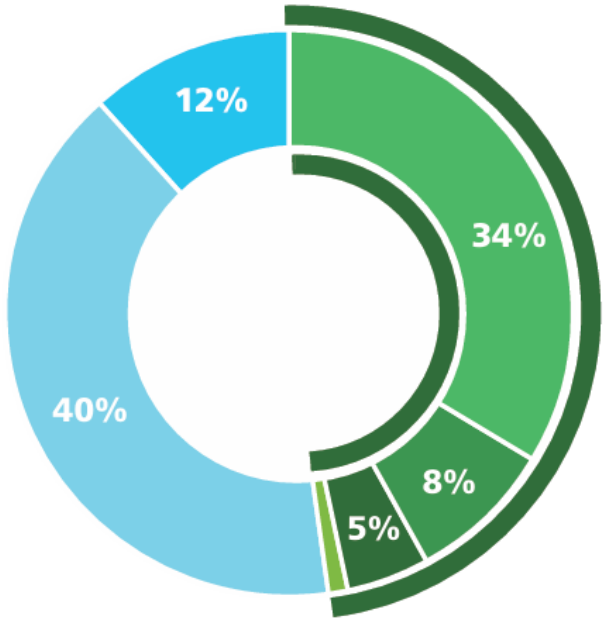

Carbon Free Electricity

Avista's Changing Source of Generation

2006

2024

As of Dec. 31, 2024. Excludes AEL&P.

Clean Energy Transformation Act (CETA)

Eliminate coal-fired electricity by the end of 2025

Use 80% renewable & 20% carbon-neutral electricity by 2030

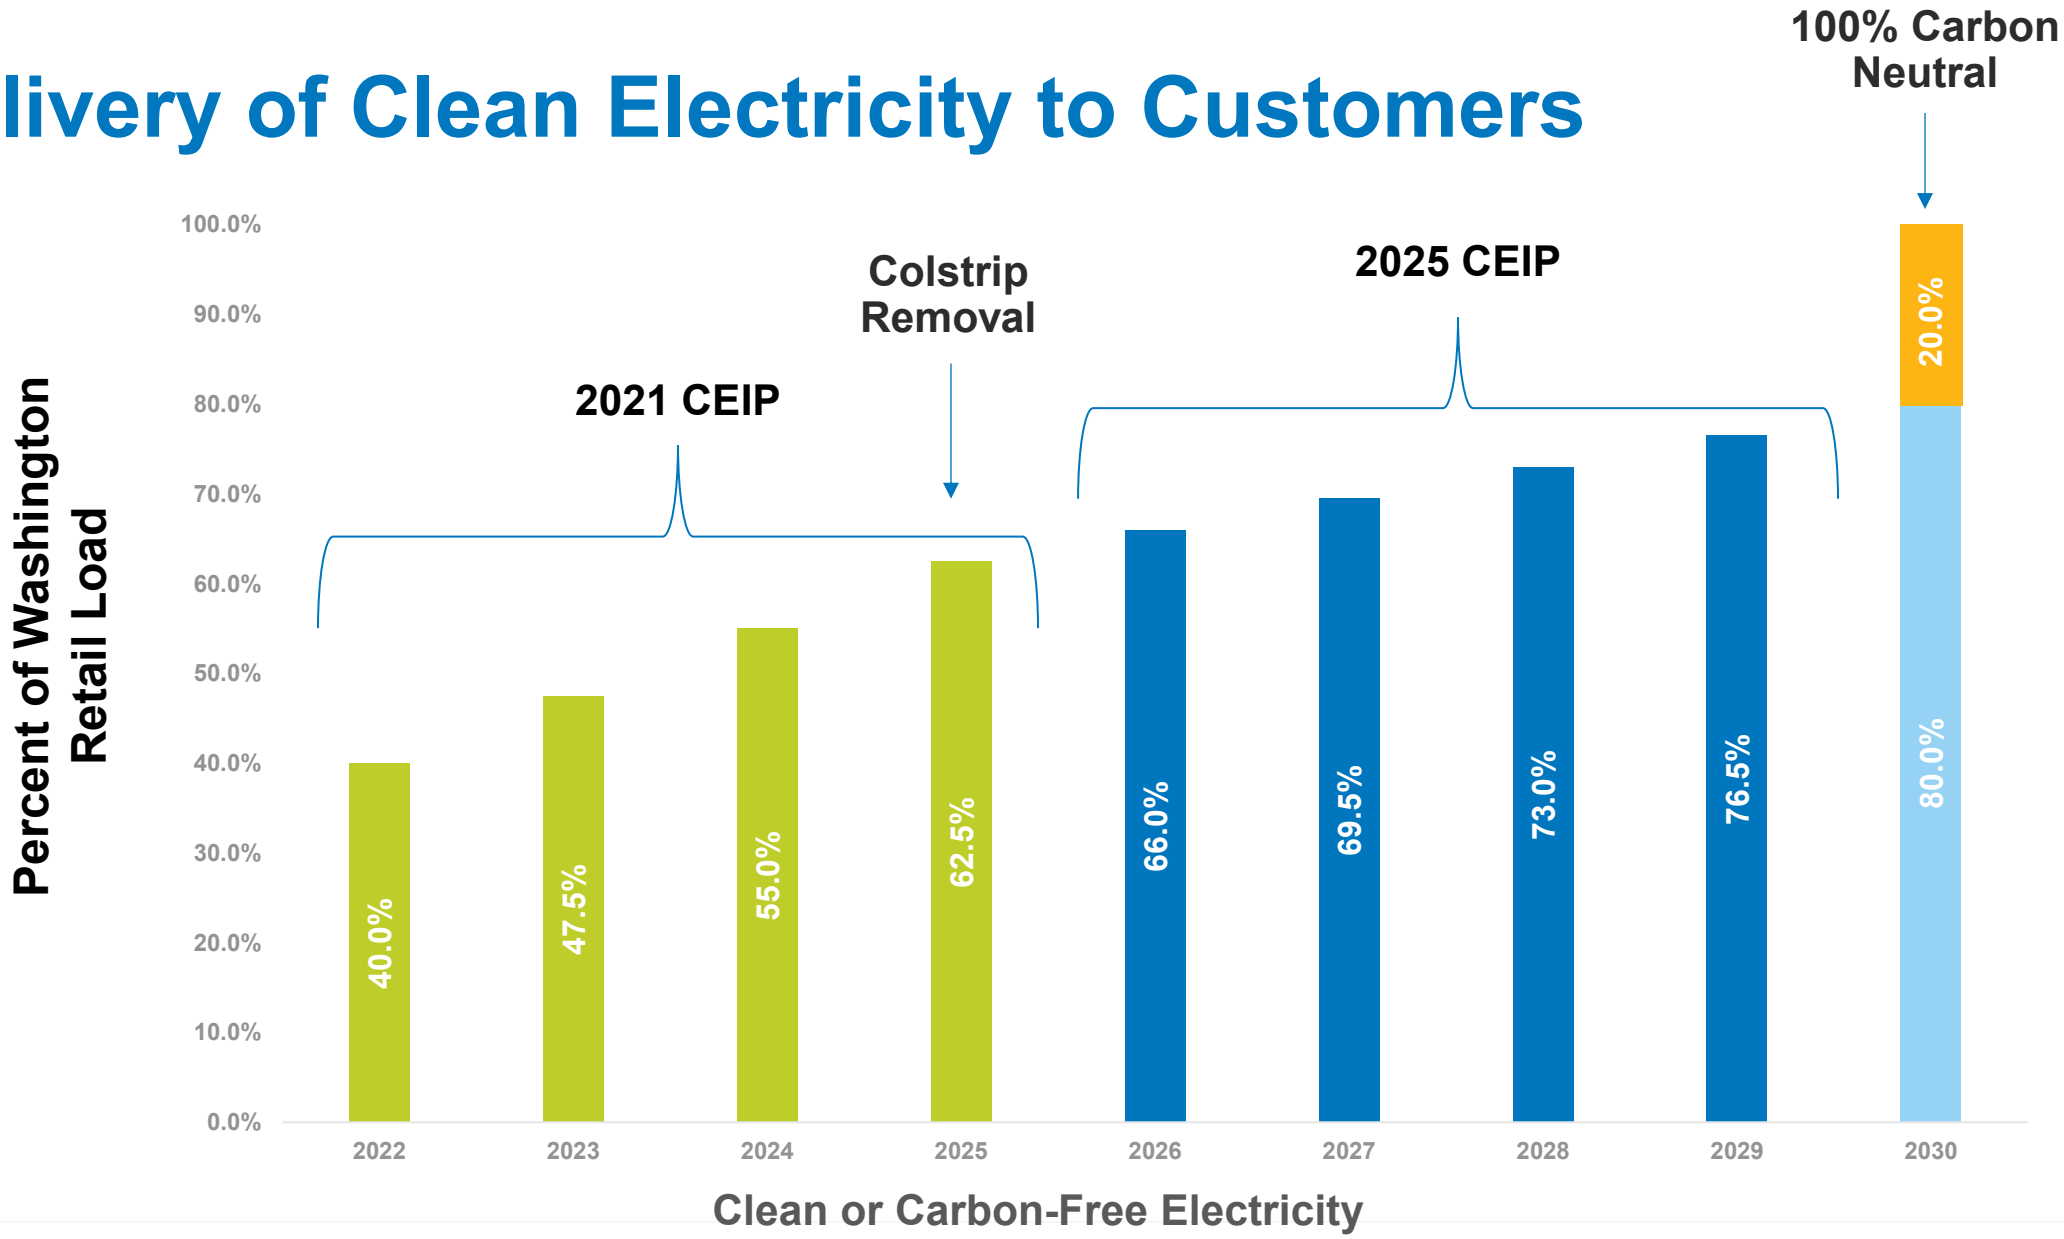

Use 100% renewable or non-carbon emitting electricity by 2045

2025

2030

2045

Delivery of Clean Electricity to Customers

Reliability & Affordability

Incremental Cost Cap & Cost of the CETA

2021 CEIP	2025 CEIP
Cost Cap: $ 118.3 million	**Cost Cap:** $157.2 million
Cost Actual: $50.3 million	**Cost Forecast:** $68.0 million

Cost Impact of the 2021 CEIP

Washington Electric Average Annual Impact*

Average bill $1,454

2021 CEIP Average Increase + **$35**

Average February Bill

Average bill $166

2021 CEIP Average Increase + **$4**

Average September Bill

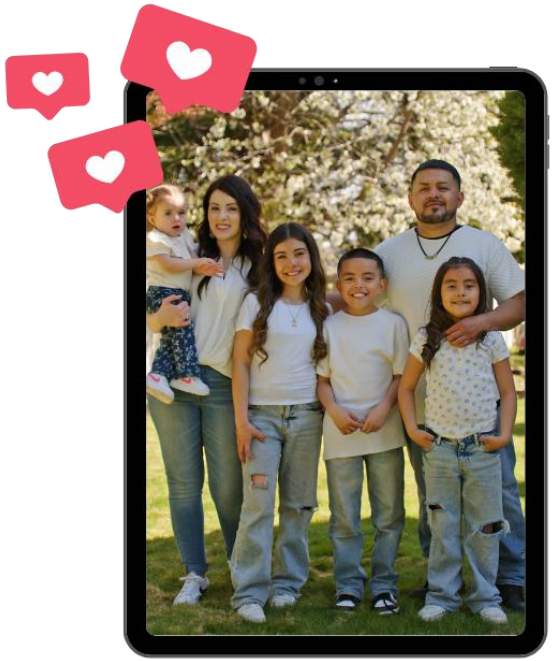

Average bill $112

2021 CEIP Average Increase + **$3**

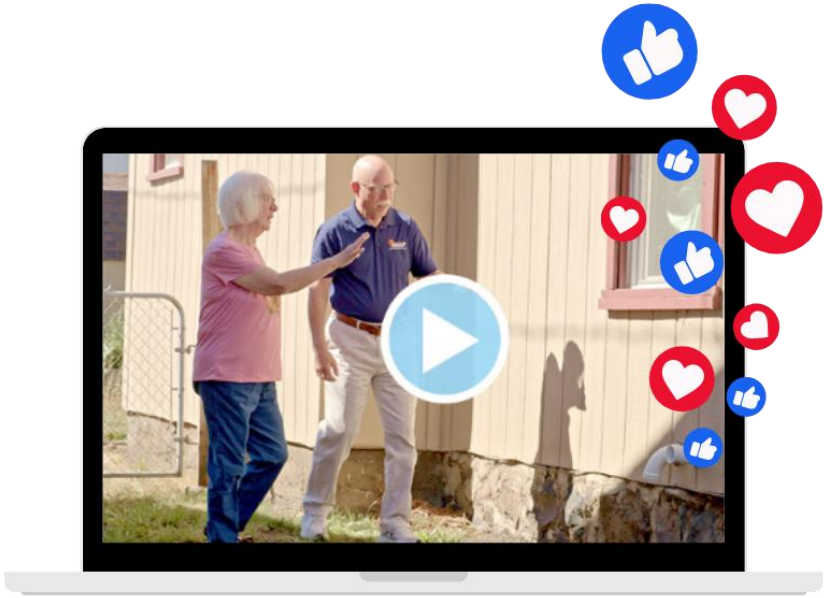

*Average increase only reflects actual costs of the 2021 CEIP at $50.3M
*Excludes financial energy assistance & impact of previous resource decisions
*Assume electric residential customer usage of 11,107 kWh/annually using rates as of December 2025
