

Washington Residential Energy Efficiency Rebates

Rebate Requirements

All rebates require contractor installation except for self-installed WIFI Enabled Thermostat. Electric to natural gas furnace conversion eligibility still requires customer to heat primarily with electric straight resistance. Customer usage will be reviewed and must demonstrate that at least 10,000 kilowatt-hours of electric straight resistance heat and less than 340 therms occurred in the last 12 months in order to be eligible for rebate. For weatherization rebates usage must be over 8,000 kilowatt-hours of electric straight resistance heat or over 340 therms for natural gas customers.

2019 Residential Energy Efficiency Rebates

Residential	2019	Notes
Heat Conversions		
Electric baseboard to Ductless Heat Pump (HSPF 9.0 or greater)	\$500	
Electric to Air Source Heat Pump	\$700	
Electric to Natural Gas Furnace	\$1,200	Ends Nov. 29, 2019
Electric to Natural Gas Furnace + Water Heat - Combo	\$1,700	Ends Nov. 29, 2019
High Efficiency Equipment		
High Efficiency Natural Gas Furnace/Boiler (90% AFUE or greater)	\$300	
Variable Speed Motor (AKA-ECM)	\$80	
High Efficiency Natural Gas Furnace/Boiler + (Electric) Variable Speed Motor	\$380	
Electric Heat Pump Water Heater (≥ 1.80 UEF)	\$215	
Natural Gas Tankless Water Heater (≥ 0.82 UEF)	\$215	
Natural Gas Water Heater (≥ 0.65 UEF)	\$60	
Weatherization		
Replacement Windows-Single Pane to Double .30 or less U-factor	\$3	
Storm Windows	\$2	
Attic Insulation (existing $\leq R11$ to $\geq R49$ insulation)	\$0.45	
Wall Insulation (existing none to $\geq R11$ insulation)	\$0.40	
Floor Insulation (existing none to $\geq R19$ insulation)	\$0.20

2019 Residential Energy Efficiency Rebates

Residential	2019	Notes
Miscellaneous		
WiFi Enabled Thermostat - Contractor Install	\$75	
WiFi Enabled Thermostat - Self Install	\$60	
Energy Star Rated Manufactured Home - Electric or Electric/Gas Customer	\$650	
Energy Star Rated Manufactured Home - Gas Only Customer	\$400	Increased Incentive
Multi-Family		
Multi-family Natural Gas Furnace or Boiler (90% AFUE or greater)	\$50	
Multi-family Conversion from Electric to Natural Gas Furnace	\$350	
Multi-family Conversion from Electric to Natural Gas Furnace + Water Heat - Combo	\$700
