The purpose of these tariff changes is to reflect the implementation of the Company's general rate case (AVU-E-08-01) and the implementation of the Power Cost Adjustment (AVU-E-08-05). The General Rate Case reflects an overall increase of 11.98% and the PCA reflects an increase of 5.9%. Avista's PCA is used to track changes in revenues and costs associated with variations in hydroelectric generation, secondary prices, thermal fuel costs, and changes in power contract revenues and expenses. Questions should be directed to Mr. Ehrbar at 509-495-8620.

With this change, Avista is increasing its Idaho electric base rates to include its additional investment in the Coyote Springs 2 (CS2) generating plant as well as the associated operating costs, reflecting its purchase of the second half of the CS2 project from Mirant. Avista is also decreasing, by an offsetting amount, its PCA surcharge revenues. With that offset, the net effect is no change in retail rates for customers. Questions should be directed to Mr. Hirschhorn at 509-495-4723.
