Ms. Amanda Maxwell Executive Director and Secretary Washington Utilities and Transportation Commission 621 Woodland Square Loop SE Lacey, Washington 98503

Re: Tariff WN U-28, Electric Service – WA Wildfire Expense Balancing Mechanism

Dear Ms. Maxwell:

Attached for electronic filing with the Commission is the following tariff sheet proposed to be effective November 1, 2022:

Original Sheet 88

The proposed tariff sheet reflects an electric rate adjustment to surcharge customers the amount of Wildfire Expense above the base level amount authorized by the Commission in Docket UE-200900. Per Order 08/05 in that Docket, the Commission approved a two-way Wildfire Expense Balancing Account that would track the variability in wildfire <u>expenses</u> Avista makes to address the growing frequency of extreme and dangerous wildfires in Avista's service territory,¹ as proposed by the Company, with certain modifications and clarifications.

These modifications included the Commission setting the Wildfire Expense Balancing Account base at \$3.065 million for Washington electric operations.² Further, the Commission clarified the operation of the Wildfire Balancing Account as follows in para(s). 258-259:

¹ Order 08/05, in Dockets UE-200900, et. al., at p. 2. Also, at para(s). 237 and 238, the Commission stated, "Avista has demonstrated that the circumstances are not normal, but extraordinary. We cannot know, at this time, when the relative threat, risk, and cost of wildfires will no longer be extraordinary and will become normal. But, in time and through utility efforts, Avista must address the challenge, and it appears that any future normal level will be at increased levels appropriately matched to counter the increased threat. ... [W]e find that these extraordinary circumstances warrant an expansive use of the regulatory tools the Commission possesses, including approval of a new wildfire balancing account and of Avista's Deferral Petition."

² Order 08/05, para. 250.

We authorize the Wildfire Balancing Account to operate outside of GRCs to the extent that we expect the account to true up deferral balances annually for return to ratepayers or recovery for the Company, with the first true up occurring on or about September 30, 2022.³²³ Modifications to the mechanics of the account, such as the application of a new base level of wildfire expense, additional requirements, or performance-based metrics, should be considered in GRCs.

^{[323} We are aware, and we intend, that the first true up will likely occur during the pendency of Avista's next GRC. The Wildfire Balancing Account will function for its first true up as authorized in this Order, with any subsequent true up being subject to any modifications made during GRCs, unless otherwise specifically ordered by the Commission for compelling cause.]

We will review and revise the Wildfire Balancing Account as necessary in Avista's next GRC, which Avista has indicated it intends to file in early 2022. Thus, we require Avista to include with its initial filing proposals for our review of new metrics that should apply in the context of multi-year rate plans, of performance-based measurements that should apply, and of any other proposals for effectively monitoring wildfire expenses.

In the Wildfire Expense Balancing Account, approved by the Commission, Avista is to record the deferral balances (expense levels higher or lower than the GRC established base) into a balancing account recorded as a separate regulatory asset in FERC Account 182.3 (Other Regulatory Assets), and credit FERC Account 407.4 (Regulatory Credit). Interest will not accrue on the unamortized balance.

In accordance with the Commission's Order, as described above, the Wildfire Balancing Account is to operate outside of the Company's GRCs, with an account true-up of the deferral balances annually, for return to ratepayers or recovery by the Company. The Company has included a carrying charge on the deferral at the authorized rate of return during the amortization period.³ In order to minimize the number of rate changes experienced by our customers, and to align with other rate changes, the Company is making this filing in coordination with the annual Residential Exchange (Schedule 59) filing, effective November 1, 2022.

The Company is proposing to recover the deferred wildfire costs over a one-year period and will true-up any over or under recovered balance in a future filing. For purposes of rate spread, the Company has applied a uniform percentage of base revenue allocation as all customers share in the costs of wildfire expense. For purposes of rate design, the Company is proposing to surcharge or rebate the proposed revenue allocation on a uniform cent per kWh basis by rate schedule.

As provided in the workpapers accompanying this filing, the total surcharge effective November

³ The current authorized ROR is 7.12%. The Company will record the actual authorized ROR in effect during the amortization period should it change during the amortization period.

1, 2022 is an increase to electric customers of \$5.1 million, or 0.9%. Below, Table 1 illustrates the impact by rate schedule:

Table 1 - Impact by Nate Schedule			
Schedule No.	Rate Schedule	Change in Billed Revenue	
1/2	Residential	1.0%	
11/12/13	General Service Schedule	0.9%	
21/22/23	Large General Service Schedule	0.9%	
25	Ext. Lg General Service Schedule	0.9%	
25I	Special Contract	0.9%	
31/32	Pumping Service Schedule	0.9%	
41-48	Street and Area Lights	0.9%	
	Overall	0.9%	

 Table 1 - Impact by Rate Schedule

Enclosed is a set of workpapers which shows the derivation of the proposed per kilowatt-hour rate credit proposed to be effective for a twelve-month period beginning November 1, 2022. Also included in the workpapers is transaction level detail of the expenses incurred during the deferral period.

The average residential customer using 932 kWhs per month will see an increase of \$0.89 per month, or approximately 1.0%. The present bill for 932 kWhs is \$85.07 while the proposed bill is \$85.96. The actual bill change will vary based on customer usage.

In accordance with the requirements of WAC 480-100-103, attached to this filing is a draft notice to customers, which the Company will provide through a bill insert, during the September 2022 bill cycle.

Please direct any questions regarding this filing to me at (509) 495-8601 or Joe Miller at (509) 495-4546.

Sincerely,

/S/ Elizabeth M. Andrews

SCHEDULE 88

WILDFIRE EXPENSE BALANCING ACCOUNT - WASHINGTON

APPLICABLE:

To Customers in the State of Washington where the Company has electric service available. This Wildfire Balancing Account shall be applicable to all retail customers for charges for electric energy sold and to the flat rate charges for Company-owned or Customer-owned Street Lighting and Area Lighting Service.

The purpose of the Wildfire Balancing Account schedule is to surcharge or rebate wildfire costs that differ from the level set by the Commission in the Company's most recent general rate case filing on an annual basis. The Company will record a carrying charge at the authorized rate of return in effect during the amortization period.

MONTHLY RATE:

The energy charges of the individual rate schedules are to be increased by the following amounts:

0.095¢ per kWh
0.116¢ per kWh
0.095¢ per kWh
0.062¢ per kWh
0.042¢ per kWh
0.093¢ per kWh
0.393¢ per kWh

SPECIAL TERMS AND CONDITIONS:

Service under this schedule is subject to the Rules and Regulations contained in this tariff.

The above Rate is subject to increases as set forth in Tax Adjustment Schedule 58.

Important Notice for Washington Electric and Natural Gas Customers September-October 2022

On September 2, 2022, Avista filed its annual Bonneville Power Administration (BPA) Residential Exchange Program, Wildfire Expense Balancing Account, and Purchased Gas Cost Adjustment filings with the Washington Utilities and Transportation Commission (UTC or Commission). If approved, new rates would take effect Nov. 1, 2022

The first rate adjustment, the BPA Residential Exchange Program, provides a share of the benefits of the federal Columbia River power system to the residential and small farm customers of the investor-owned utilities in the Pacific Northwest, including Avista. Avista applies the benefits it receives to qualifying customers as a credit in their monthly electric rates. Due to fluctuations in usage, Avista rebated to customers a level of benefits that was slightly lower than the level of benefits received from BPA. Through this filing Avista is seeking to slightly increase the level of benefits provided to qualifying customers in order to return the under-rebated balance.As a result, the proposed revenue decrease for these customers is approximately \$0.2 million, or 0.1%.

The second, Wildfire Expense Balancing Account, tracks the difference in wildfire expenses incurred by Avista to address the growing frequency of extreme and dangerous wildfires in Avista's service territory to the base expense approved by the Commission. The difference is rebated to or collected from customers through Schedule 88 – Wildfire Expense Balancing Account. The rate increase proposed reflects the higher level of expense incurred above the approved amount. If approved, Avista's request is designed to increase natural gas revenues by \$5.1 million or 0.9%.

The third rate adjustment is Avista's Purchased Gas Cost Adjustment (PGA). PGAs are filed each year to balance the actual cost of wholesale natural gas purchased by Avista to serve customers with the amount included in rates. This includes the natural gas commodity cost as well as the cost to transport natural gas on interstate pipelines to Avista's local distribution system. The proposed rate increase is primarily due to increased wholesale natural gas costs during the past year which were higher than the amount collected through rates. If approved, Avista's request is designed to increase natural gas revenues by \$25.0 million or 12.3%.

Change in Rates - If approved by the Commission, residential electric customers in Washington using an average of 932 kilowatt hours/month would see their monthly bills change from \$85.07 to \$85.87, an increase of \$0.80/month, or approximately 0.9%. Residential natural gas customers in Washington using an average of 67 therms per month would see their monthly bills change from \$72.66 to \$81.59, an increase of \$8.93 per month, or approximately 12.3%.

The percentage change varies by rate schedule and depends on how much energy a customer uses. If approved, customers would see the following rate adjustments:

		-	
Electric Service	Current Billing	Proposed Change	Proposed Billing
	Rate		Rates
Basic Charge	\$9.00	\$0.00	\$9.00
First 800 kWhs/month	\$0.07975/kWh	\$0.00086/kWh	\$0.08061/kWh
Next 700 kWhs/month	\$0.09299/kWh	\$0.00086/kWh	\$0.09385/kWh
Over 1,500 kWhs/month	\$0.10925/kWh	\$0.00086/kWh	\$0.11011/kWh

Electric Rate Change Proposed Schedule 1 <u>Residential</u> Rates (effective Nov. 1, 2022)

Schedule	Rate Schedule	% Change in Billed
No.		Revenue
1/2	Residential	0.9%
11/12/13	General Service	0.9%
21/22/23	Large General Service	0.9%
25/25I	Ex. Lg. General Service	0.9%
31/32	Pumping Service	0.9%
41-48	Street and Area Lights	0.9%
Overall		0.9%

Proposed Electric Rate Change by Schedule (effective Nov. 1, 2022)

Natural Gas Rate Change

Proposed Schedule 101 Rates (effective Nov. 1, 2022)

Natural Gas Service	Current Billing Rate	Proposed Change	Proposed Billing Rates
Basic Charge	\$9.50	\$0.00	\$9.50
First 70 therms/month	\$0.94265/therm	\$0.13328/therm	\$1.07593/therm
Over 70 therms/month	\$1.06563/therm	\$0.13328/therm	\$1.19891/therm

Proposed Natural Gas Rate Increase by Schedule (effective Nov. 1, 2022)

Schedule	Rate Schedule	% Increase
No.		Billed Revenue
101/102	General Service	12.1%
111/112	Large General Service	14.4%
131/132	Interruptible Sales Service	3.5%
146	Transportation Service	0.0%
Overall		12.3%

The Company's request is a proposal, subject to public review and a Commission decision. The Commission has the authority to set final rates that may vary from the utility's request, which may be either higher or lower depending on the results of the investigation. You may contact the UTC to inquire about the Commission process, or to be notified about the scheduled open meetings at which the proposal will be considered. You can contact the Commission to comment on Avista's rate proposals via email at comments@utc.wa.gov, by telephone at 1-888-333-WUTC (9882), via letter at: UTC, P.O. Box 47250, Olympia, WA 98504-7250, or online at: www.utc.wa.gov. Copies of the applications are available for public review on the Commission website.

Copies of our filings are available for public review at <u>www.myavista.com/rates</u> or on the Commission website at <u>www.utc.wa.gov</u>. You can also submit written questions directly to the Company via mail at: 1411 E Mission Ave, C/O Regulatory Affairs, Spokane, WA 99202.
