<sup>1</sup> SEER/HSPF table is effective for equipment that only has SEER/HSPF rating in the AHRI directory.

<sup>2</sup> Values are AHRI rated efficiencies.

<sup>3</sup> The contractor is highly encouraged to pass the equipment incentive through to the customer.

<sup>4</sup> Customers may qualify for IRA rebate. Please visit <https://www.energy.gov/scep/home-energy-rebate-program> for more information.

<sup>5</sup> SEER2/HSPF2 table is effective for equipment that has only a SEER2/HSPF2 or dual rating in the AHRI directory.
