

DOWNED POWER LINES

Some letters have fallen out of the sentence—but stayed in the correct columns. Can you figure out how to put them back in the grid? It spells out an energy-safety question and the answer.

			T												
		I						S							
			W									R			
	I		?			S							C		

N Y O A O E E
 W D O E D O U Y Y U E A A
 L H A F N E D T P O W B D O K

LOGIC HINTS

Start with the columns with the least letters. Look for one- or two-letter words and play with the possible letters. Use a pencil so you can change your mind. Think about how every question begins.
