

Important Notice for Oregon Natural Gas Customers

(September 2022)

On April 29, 2022, Avista filed a rate change proposal with the Public Utility Commission of Oregon (PUC) asking for an overall increase of 0.6% in natural gas rates, effective November 1, 2022. If this rate change is approved, Avista's natural gas revenues would increase by approximately \$0.8 million. This filing has no impact on Avista's earnings.

The purpose of this filing is to surcharge or rebate the costs and benefits associated with the Company's COVID pandemic deferral.

The bottom line

If Avista's natural gas rate request is approved, an Avista natural gas customer using an average of 47 therms per month could expect to see a bill increase of \$0.74, or 1.1%, for a revised monthly bill of \$67.71 beginning November 1, 2022. Several other non-residential customer groups receiving natural gas service from Avista would see rate decreases of approximately 0.2% if the Company's filing is approved by the Commission.
