

AVISTA®

**If you think you can't
afford energy-efficiency
upgrades, think again.**

We've partnered with Puget Sound Cooperative Credit Union on a new program for our Washington customers.

Energy-Smart Loans provide zero-down, low-interest financing on a wide range of energy-efficiency measures: things like heating and cooling, windows and doors, and ENERGY STAR-certified appliances. Even insulation and lighting.

And best of all? The convenience of having your low monthly payment added to your Avista bill.
