Join us in making a positive difference for our community.

With Avista's **My Clean Energy Program**, you can choose energy sources that offset up to 100% of the carbon emissions from your energy use.

Annually, Avista My Clean Energy customers contributions offset more than 35 million kilowatt hours of electric use, with clean, renewable energy – enough to power more than 4,000 homes for one year. You don't need to own your home, put up solar panels, or pay any money up front.

Calculate the impact you'll make at **myavista.com/MyCleanEnergy**.

For information on benefits and projects we support, plus answers to other FAQs, visit **myavista.com/MyCleanEnergy**.

☐ My Clean Energy 100% Clean Option

The 100% option gives you the ability to offset 100% of the carbon emissions associated with your electric use for just $0.013 per kWh. So, if you use 850 kWh of electricity per month (the average for an Avista customer), you can offset 100% of your carbon emissions for just $11.00 more per month.

☐ My Clean Energy Regional Flat Option

Our regional program lets customers support clean, renewable energy projects close to home for as little as $1.30 a month. Just tell us how many units of clean energy you would like to purchase ($1.30 per 100 kWh)—for a flat, predictable amount each month.

Please sign me up for _____ units at $1.30 each.

☐ My Clean Energy National Flat Option

Our national program lets customers support clean, renewable energy projects on a national level for as little as $1.00 a month. Just tell us how many units of clean energy you would like to purchase ($1.00 per 100 kWh)—for a flat, predictable amount each month.

Please sign me up for _____ units at $1.00 each.
